

# INTERNATIONAL SOCIETY FOR NEUROVIROLOGY

*Application for Membership to the International Society for NeuroVirology (ISNV)*

## MISSION STATEMENT

The International Society for NeuroVirology is a non-profit corporation established in 1998 as an international forum for researchers and clinician scientists involved in the study of neurovirology. The purpose of the Society is to advance collaboration among scientists in all aspects of neurovirology and related disciplines in order to further knowledge in the area, and promote the clinical application of this knowledge to prevent and treat neurodegenerative and neoplastic disease in the nervous system. The Society will achieve these goals primarily through the organization and sponsorship of international meetings and through its official bi-monthly publication, the Journal of NeuroVirology.

## AIMS OF THE SOCIETY

*The aims of the International Society for NeuroVirology are to further the science of neurovirology as follows:*

- Organization of the International Symposium on NeuroVirology
- Co-sponsorship of small research conferences in neurovirology and related areas
- Publication of the bi-monthly Journal of NeuroVirology, the official journal of the Society
- Publication of reviews concerning research relevant to the field of neurovirology
- Publication of a news blog for the distribution of material related to the field
- Sponsorship of an award to recognize pioneering research in the field of neurovirology
- Promotion of education in neurovirology by sponsorship of graduate/post-graduate participation in Society-organized meetings
- Textbook development for medical and graduate education, as well as undergraduate education
- Encouragement of collaboration between international scientists engaged in the study of all aspects of neurovirology
