

# Indo-US Symposium On Viral Infections of the Nervous System

23-25 February 2014 National Brain Research Centre, India

## Who can apply:

Candidates pursuing PhD. degree, postdoctoral fellows, clinicians, and faculty from different universities in India and US working in the field of CNS infections are invited. Participants who want to present their work as posters or talk can submit their abstract along with the application form.

## Registration Fee:

Pls-\$ 700

PhD and Post Doc Fellows - \$ 400

**Venue – Hyatt Regency, Gurgaon, India**

**Travel Awards Deadline – 15<sup>th</sup> December, 2013**

**Registration Deadline - 30 December 2013**

**Contact: neurovirology2014@nbrc.ac.in**

**Workshop Website - <http://www.nbrc.ac.in/indous/IndoUS/>**

## Confirmed Speakers

Anirban Basu, NBRC, India  
Avindra Nath, NINDS, NIH, USA  
Brian Wigdahl, Drexel University, USA  
Donald H Gilden, University of Colorado, USA  
Eliseo Eugenin, Rutgers University, USA  
Howard Lipton, University of Chicago, USA  
Jayasri Das Sarma, IISER-Kolkata, India  
Jeymohan Joseph, NIMH, NIH, USA  
Kamel Khalili, Temple University, USA  
Kenneth Shindler, University of Pennsylvania, USA  
Lynn Pulliam, University of California, USA  
Manisha Ghate, NARI, India  
P. Satishchandra, NIMHANS, India  
Pankaj Seth, NBRC, India  
Randall Cohrs, University of Colorado, USA  
Ranjit Giri, NBRC, India  
Ravi Mahalingam, University of Colorado, USA  
Sabita Roy, University of Minnesota, USA  
Shilpa Buch, University of Nebraska, USA  
Stanley Perlman, University of Iowa, USA  
Sunit Singh, CCMB, India  
Susan R Weiss, University of Pennsylvania, USA  
U.K. Mishra, SGPGI, India  
V Ravi, NIMHANS, India

## Objective

The primary goal of the Indo-US Symposium on Viral Infections of the Nervous System is to bring together pioneers in the field of Neurovirology from US and India to a single platform, to nurture their research ideas as well as to explore potential collaborations in areas of mutual interests. The symposium aims to provide young investigators working in the field of Neurovirology and related areas with cutting edge information so that important gaps in knowledge can be identified and interesting avenues for future research are explored. This meeting would involve 50-60 basic researchers, clinical scientists, students and trainees working in the diverse areas of neurology, neuropathology, neuropathogenesis, neurobiology, neuroimmunology, neurochemistry, and molecular virology of the CNS.

## Program

The scientific program will include plenary sessions, platform talks and oral/poster presentations from students and post-docs. The Symposium will also include panel discussions involving peers National & International in the field of Neuro Infection. The Organizing Committee has prepared an exciting program spanning most areas of neurovirology that will provide leading edge information to the attendees.

## Host Institutions:

National Brain Research  
Centre (NBRC) Manesar,  
India  
(Pankaj Seth, PhD,  
Anirban Basu, PhD)

Indian Institute of Science  
Education & Research (IISER)  
Kolkata, India  
(Jayasri Das Sarma, PhD)

University of California, San  
Francisco, USA  
(Lynn Pulliam M.S., PhD)

University of Colorado,  
USA  
(Randall J. Cohrs, PhD)

## Sponsored By

**Indo-US Science & Technology Forum (IUSSTF)**
